Sequence 27, Application US/08756806A

Patent No. 595229

GENERAL INFORMATION:
APPLICANT: Monia, Brett P. and Boggs, Russell T.
TITLE OF INVENTION: Antisense Oligonuclectide Modulation
TITLE OF INVENTION: of raf Gene Expression
NUMBER OF SEQUENCES: 65

                                                                                                                                                                                                               Sequence 27, Application US/09143214
Patent No. 6090626
GENERAL INFORMATION:
APPLICANT: Monia, Brett P. and Boggs, Russell T.
TITLE OF INVENTION: Antisense Oligonuclectide Modulation
TITLE OF INVENTION: of raf Gene Expression
NUMBER, OF SEQUENCES: 65
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Query Match

APPLICANT: Arnold, Lyle J.

APPLICANT: Riley, Timothy A.

APPLICANT: Reynolds, Mark A.

APPLICANT: Schwartz, David A.

TITLE OF INVENTION: CHIRALLY ENRICHED SYNTHETIC PHOSPHATE

TITLE OF INVENTION: UNIMBER: US/08/885,126A

CURRENT APPLICATION NUMBER: US/08/885,126A

CURRENT APPLICATION NUMBER: 08/343,018

EARLIER APPLICATION NUMBER: 08/343,018

EARLIER APPLICATION NUMBER: 08/154,013

EARLIER FILING DATE: 1993-11-16

NUMBER: OF SEQ. ID NOS: 22

NUMBER: OF SEQ. ID NOS: 22
